

Request for Pesticide Notification

2004-2005

New York State Education Law Section 409-H requires all public and nonpublic elementary and secondary schools to provide written notification to all people in parental relation, faculty, and staff regarding the potential use of pesticides periodically throughout the school year.

The Niskayuna Central School District is also required to maintain a list of people in parental relation, faculty, and staff who wish to receive 48-hour prior written notification of certain pesticide applications.

The following pesticide applications are not subject to prior notification requirements:

- a school remains unoccupied for a continuous 72 hours following an application;
- anti-microbial products;
- nonvolatile rodenticides in tamper-resistant bait stations in areas inaccessible to children;
- nonvolatile insecticidal baits in tamper-resistant bait stations in areas inaccessible to children;
- silica gels and other nonvolatile ready-to-use pastes, foams, or gels in areas inaccessible to children;
- boric acid and disodium octaborate tetrahydrate;
- the application of EPA designated biopesticides;
- the application of EPA designated exempt materials under 40CFR152.25;
- the use of aerosol products with a directed spray in containers of 18 fluid ounces or less when used to protect individuals from an imminent threat

from stinging and biting insects, including venomous spiders, bees, wasps, and hornets.

In the case of an emergency application necessary to protect against an imminent threat to human health, a good faith effort will be made to supply written notification to those on the 48-hour prior notification list.

How to be notified

If you would like to receive 48-hour prior notification of pesticide applications that are scheduled in your child's school, please complete the form below and return it to Megan Allen, communications specialist, 1239 Van Antwerp Road, Niskayuna, NY 12309; telephone 377-4666, Ext. 207; e-mail allen.m@nisk.k12.ny.us; or fax 377-4074.

Questions?

For more information about pesticide notification, contact:
